Set Blackboard Options

This service allows instructors to "Blackboard Enable" sections they are teaching. Under the Main tab, you can choose to enable a single section individually or choose to combine all of the sections that you are teaching into a single Blackboard course. Under the Customize tab, you can choose any 2 or more of your sections to create a custom Blackboard course. Once a section is enabled, it will be automatically created in Blackboard, and students who have added or dropped the section in SAP will be updated in Blackboard through a nightly synchronization process. Under normal circumstances, courses that have been enabled will appear in Blackboard within an hour of being requested.
