Please check your information carefully. If you find that a **section** is missing, contact [Doris Hodge](#). If you find that a **student** is missing from your class roll, contact [Denise Knighton](#). Both individuals can be reached by calling the Registrar's Office at x7792.

Need to e-mail your students?

To send e-mail or SMS text messages to students in the classes you are currently teaching, go to [Ole Miss Today Administration](#) tool. In Step 4, set your options to send immediately. SMS text messages will only go to those who have opted in to receive non-emergency text messages. You can send text-only messages using the one step [Send Immediate](#) tool.

For individual assistance with this interface, please contact the [Faculty Technology Development Center](#) (662-915-7918).

Please direct suggestions, feedback, and trouble reports to web@olemiss.edu.

Note to Instructors of Lower Level Courses:
Thank you for your assistance in the Freshman Attendance Based Initiative (FABI) program. This service allows you to select a section and then enter absences for students in lower level courses. Beside each student's name you will be able to submit the student's total absences for the semester and an optional note. Please do not post any absences until the student has 3 or more. We are particularly interested in finding out about **freshman students** with excessive absences, but the interface supports reporting on sophomore students too. We ask that you post your absences weekly. Every Monday the FABI Coordinator will get the data report and use our communication model to address the students who have multiple absences. This program has the potential to be highly successful in regards to retention, but it must be a team effort. Your continued support is greatly appreciated. If you have any questions please call the FABI Coordinator in the [Academic Support Center](#) at 915-5970. Thank you.

Teacher Evaluation Reminder

Alert! This is your last chance to complete course/teacher evaluations.

You have one or more outstanding course/teacher evaluations that need to be completed. During the first week of online viewing of grades, we ask that you go to the "On-Line Evaluation of Instruction" link shown below to complete your outstanding course/teacher evaluations.

Proceed to [On-Line Evaluation of Instruction](#) before checking final grades.

Please complete an evaluation for: Accy 201 Section 1

Please complete an evaluation for: Bus 271 Section 7

Please complete an evaluation for: Math 262 Section 6

Please complete an evaluation for: Span 102 Section 5

Students are given a
“last chance” to complete
evaluations before viewing
final grades.

All students are strongly encouraged to complete evaluations as these responses may:

- help your instructor to improve his or her teaching skills;
- contribute to tenure, promotion, salary, or award decisions concerning your instructor;
- be used by future students when selecting courses to take.

The results of the course/teacher evaluations are made available to the public within one month of the completion of each semester. You will be able to access these results, complete with comparisons with similar courses taught within the school/college, from the UM web page under Current Students/Academics. Publicly available results will include text response for a student-to-student question.
