Text: Smith-Minton, CALCULUS, 2nd edition, McGraw Hill.

Time/place: Tue-Th 8:00- 9:15, Hume 201

We intend to cover Chapters 12, 13 and 14.

- Tests:
1. There will be three major tests, one after each chapter. Each counts 100 points and will be announced in advance.
 2. The final examination is comprehensive and counts 200 points.
 3. The student shall use large 8 1/2 by 11 inch blue examination books for use on the tests and the final.

Grades: Will be assigned as follows:

- A 90 - 100%
- B 75 - 89%
- C 60 - 74%
- D 50 - 59%, and F for less than 50%

IMPORTANT RULES

1. If a test is missed for any reason, a grade 0 will be given.
2. Homework will be given, but will not be graded. I expect students to ask questions concerning homework and we will discuss them in class.
3. During tests students must show all work in order to receive credit.
4. Each student is responsible for all work missed due to absence.
5. More than three absences put you on a 'watch list', especially if your tests are weak.

Due to the class size, these rules must be strictly observed. Especially, the tests should be prepared with care. They will be announced in advance, so you will have time to prepare. Because of time constraints, we cannot have make-up tests.
