JOB DESCRIPTION

Senior Electrician

Definition of Class
This is a supervisory position that maintains work assignments and reviews work in progress and completed work of subordinate employees. Incumbent assists in training new personnel. Constructs, installs, modifies, maintains and repairs electrical appliances, systems, facilities, and related electronic controls and devices in accordance with blueprints, specifications, established practices, and pertinent state and local electrical codes; reports to the Supervisor of the Electrical Shop.

Examples of Work Performed
Prepares layout; assembles and installs wiring in University buildings and outside electrical distribution systems in accordance with blueprints, specifications, established practices, and pertinent state and local electrical codes.

Installs, maintains, and repairs electrical appliances and equipment such as ranges, ovens, incubators, autoclaves, centrifuges, washers, dryers, lamson systems, microfilm machines, compressors, generators, pumps, lighting equipment, carrier systems, timing devices, steam and electric heating units, exhaust systems, smoke detectors, fire alarms, clock and bell systems, stoves, freezers, vacuum cleaners, hypothermal units, humidifiers, buffers, strippers, thermostats, and electrical systems of furnaces and boilers. Sets up and operates public address systems as directed.

Diagnoses and corrects electrical system and equipment malfunctions; tests, adjusts, sequences, synchronizes and aligns such systems and equipment as AC and DC power supplies, main power control panels, motors, generators, circuit breakers, and relay panels.

Determine methods and sequence of operations required to locate, design, install, test, repair, and modify electrical systems and equipment by interpreting blueprints, wiring and schematic diagrams and following technical, verbal and written instructions.

Assists in making work assignments; assists in reviewing the work of lower rated employees; assists in training new personnel. Assists in making estimates of electrical work.

Works all power outages as well as scheduled athletic events and concerts.

Performs similar or related duties as assigned or required.

Essential Functions
These essential functions include, but are not limited to, the following. Additional essential functions may be identified and included by the hiring Department.

1. Prepares layout assemblies and installs wiring in University building and outside electrical distribution systems.
2. Installs, maintains, and repairs electrical appliances and equipment.
3. Determines methods and sequences of operations required to locate, design, install, test, repair, and modify electrical systems and equipment.
4. Diagnoses and corrects electrical systems and equipment malfunctions.
5. Makes work assignments, reviews the work of assigned personnel, and assists in training new personnel.

Minimum Qualifications
These minimum qualifications have been agreed upon by Subject Matter Experts (SMEs) in this job class and are based upon a job analysis and the essential functions. However, if a candidate believes he/she is qualified for the job although he/she does not have the minimum qualifications set forth below, he/she may request special consideration through substitution of related education and experience, demonstrating the ability to perform the essential functions of the position. Any request to substitute related education or experience for minimum qualifications must be addressed to The University of Mississippi's Department of Human Resources in writing, identifying the related education and experience which demonstrates the candidate's ability to perform all essential functions of the position.

**Physical Requirements:** These physical requirements are not exhaustive, and additional job related physical requirements may be added to these by individual agencies on an as needed basis. Corrective devices may be used to meet physical requirements.

- **Physical Exertion:** The incumbent may be required to lift up to approximately 100 pounds.

- **Vision:** Requirements of this job include close vision and color vision.

- **Speaking/Hearing:** Ability to give and receive information through speaking and listening.
