# THE LANDSHARK LANDSCAPER

## Prepare for the Fall at the end of Summer

Knowing the steps to prepare for the next season is crucial. Proper pruning, knowing the appropriate fertilizer to use and choosing the correct flowers to plant will make your landscape become bright and beautiful.

Purchase tulip bulbs or other fall flowers to plant in October or November.

Using pre-emergent will help prevent winter weed seed germination in your turf.

Pruning flowers or trees help future growth and keep the trees healthy.

## SEPT DO'S & DON'TS

DO's

- Prune roses to encourage fall blooms
- Cut back of annual flowers such as Angelonia and petunias
- Use pre-emergent before October 15

DON'Ts

- Avoid planting new plants
- Avoid watering and applying chemicals to plant leaves during the day as this could lead to leaf burn.

## What's Blooming

- Crepe Myrtle
- Roses
- Hydrangeas
- Magnolia Trees
- Vitex
- Gardenia

# SEPTEMBER 2018

Pruning Crepe Myrtles correctly will enhance the health of the tree.

PRUNE A TREE PROPERLY VIDEO

Knowing when to prune Azaleas is very important for future growth.

PRUNE AN AZALEA PROPERLY VIDEO

Plant bulbs to the proper depth of 3 times the diameter of the bulb.
